X-PERIENCE

The 1991 Oak

Glassboro State College
Glassboro, NJ 08028

X-PERIENCE

Experience! This one word takes on many different meanings for many different people. Because every person perceives objects, thoughts, emotions and events through their senses in various ways, no one persons' experience can be the same. But, when Glassboro State College students are partnered, the totality of such events lead to opportunities that are experienced individually and at the same time together.

Experiences here at Glassboro State take several configurations. Involvement in student life, clubs, organizations and sports events enable us to develop friendships and contacts that continue long after graduation. Enjoying these experiences at G.S.C. strengthen us. Unfortunately though, there is at times pain and pressures added to our experiences. Overcoming these barriers which we stumble upon helps to prepare ourselves to solve not only our problems of today, but gaining the ability to tackle our problems of tomorrow. Looking back through these experiences, we realize that G.S.C. has taught us more about life, and has made us wiser and more courageous to take on the world.

X-PERIENCE

Everything was new when we came to college; the atmosphere, the people, the fun. Some of our best memories were made when we would go to parties, drink flat beer, flirt with strangers, stagger home, and order Dominos. This daily ritual helped us befriend strangers, and find our own little niche here at Glassboro.

Glassboro State College became a second home to many of us. We shared rooms, clothes, and food with friends who were as close to us as brothers and sisters. While lounging around our dorm rooms, or sitting in the cafeteria, we would talk for hours about everything. Our families, our friends from home, our classes and professors, our faults and attributes, and our "hook-ups" (some that were successful, some that were beer goggle disasters!)

After several semesters of toiling over pop quizzes, papers, presentations, mid-terms, and finals, we focused on our personal interests. Eventually, we would declare our major.

Time sped up our senior year in college because there was so much left to do and so little time to do it. We had to take care of the last minute details on our resumes and cover letters. Anxiety levels rose and everyone was concerned about where they were headed after graduation. Somehow, we managed to take things in stride.

Over the years, we learned about ourselves and others. We grew together and developed some of the strongest bonds that we will cherish for the rest of our lives.

This yearbook is filled with experiences we have encountered here at Glassboro State College. As you thumb through the pages, the familiar pictures of the people and places will no doubt remind you of the most carefree — fun-filled time of your life.

X-PERIENCE

SENIORS

The Senior Section of our yearbook is dedicated to all those who will be graduating in May or December. We *know* you deserve a standing ovation for all the grief, hard work (and fun times too) that you have tolerated. But just think things can only get better, right? Of course! You are now on to bigger and more wonderful things. In a short time Glassboro State College will be a name that helped you achieve your goals and get you where you are going!

"Real Decisions"

It is now time to go into the "real" world. Being a senior means making "real" decisions. By this time in our lives we know what kind of person we are, hopefully what to be and what we want to achieve. It's now time to make some serious decisions about it. Maybe we are going to go out into the world and get a "real" job. This job will be paying our "real" rent, and our "real" bills. Relying on our parents can no longer continue. If a job is not in our immediate future, maybe "real" family is! "Real" babies, "real" diapers, and "real" bottles are included. Whatever our future may bring us, it is our decision to make it. Hopefully, our experiences here at Glassboro State College will ease us into making these decisions easier.

X-PERIENCE

FACULTY

Just as the college building is a structure, a framework, the physical space in which we maneuver every day, the faculty are the intellectual and spiritual structure or framework to these four years of our education. As our masses sift and flow through the buildings, it is they who remain, the seeming constants of this ever-changing organism, the college. If the students are the figure, the soaring melody, the visible character of the college, the faculty are the ground, the steady rhythm, the subtle but firm will at the college's heart. And in the end, it is they who have created us. Our teachers, our advisors, our coaches have been vectors that pulled and molded our lives as we filled ourselves in our passing. Even in our rebellion against the old, we must look at them as the standard which we have chosen to follow or to spurn. They are the beginning, the framework, but it is the framework that determines where the rest shall go, not the flashy exterior that decides what shall support it. And for that, we owe them a great deal of ourselves.
